11 July, 1946

MEMORANDUM FOR ACTING CHIEF, CENTRAL PLANNING STAFF.

SUBJECT: Planning Directive No. 46a.

1. Reference Directive continues the committee set up under Planning Directive No. 46, which committee - in the present case to be considered - is not necessary.
2. The committee set up under Planning Directive No. 46, was designed to consider a large question requiring long study by many persons. The large question requiring long study has been laid aside for the time being.
3. The immediate question of disposing of the former SSU Photo Files does not require long study by many persons and the study of this relatively simple question does not require the original large committee.
4. It is requested that the Acting Chief, Information Branch, be authorized to study the immediate question with the minimum personnel possible, such minimum to be determined by him, in order to eliminate the waste of man-power and time involved if the larger committee is still required to function.
